

Gang graffiti: Tags are associated with known gangs in Portland and beyond. Often pop up in same areas of town over and over. Differs from moniker graffiti in that tags are not typically associated with one person trying to gain notoriety for their graffiti. Lettering is more legible and slightly less stylized than other graffiti. **Examples of common gang graffiti tags: STC 13, 18, 18th Street, Brood, Norteño, Sureño, Crips, MS 13.**

Moniker Tagging: usually a unique name/initials tagged by an individual, placed prolifically in highly-visible locations to gain notoriety and recognition. Highly stylized-- style can vary even with same moniker/name.
