HVT-P Instructions:

- Line #1 - A general description of the heavy vehicle activities in Oregon and in Portland
- Line #2 - The total amount of Oregon Weight-Mile Tax calculated for all periods within the tax year
- Line #3 - The total heavy vehicle miles subject to the Oregon Weight-Mile Tax
- Line #4 - The total heavy vehicle miles driven on streets owned or maintained by the City of Portland. Actual driving records substantiating petition claim must be provided for a petition to be approved. Digital copies are acceptable and may be submitted via email to annie.lundgren@portlandoregon.gov.

In cases where paying the regularly-calculated HVT in advance will place an undue financial burden on the taxpayer, the Revenue Division may waive the prepayment requirement.

Signature - The Signature of owner/officer attesting that the mileage calculations (estimates and actuals) are substantially accurate/correct to the best of their knowledge and that due diligence has been performed in completing the calculations.

Reasons for Reductions:

- 1) Petitions will generally only be approved in cases where the total (all vehicles) amount of heavy vehicle miles driven on Portland owned or operated streets is less than or equal to 1% of the total heavy vehicle miles driven in Oregon. The reduction will be limited to 50% of the regularly computed HVT and will not reduce the HVT to below the \$100 minimum amount due under PCC 7.02.500 D 2. The HVT must be calculated at the regular (2.8% of the total Oregon Weight-Mile Tax) amount and paid in full in order to petition for a reduction.
- 2) In extreme cases, generally defined as cases where a taxpayer drives less than one tenth of one percent (0.1%) of their Oregon heavy vehicle miles on Portland owned or operated streets, a taxpayer will be granted a reduction to the 50% limit. In these extreme cases, the taxpayer may calculate their HVT by multiplying their actual Portland/Oregon mile percentage by their total Oregon Weight-Mile Tax and then multiplying the result by 2.8. If the result is less than \$100, they would still be subject to the \$100 minimum amount due under PCC 7.02.500 D 2. In cases where paying the regularly-calculated HVT in advance (of the petition) will place an undue financial burden on the taxpayer, the Revenue Division may waive the prepayment requirement.

Other information:

The petition should generally be filed with the original return; however, it can be submitted separately. If submitted separately, it must be received by the Revenue Division within 60 days from the date the original return was filed.

The petition will be reviewed by the Revenue Division and a determination will be made by the Revenue Division within 90 days of the receipt of the petition. If more information is needed to make a determination, the taxpayer will be notified within the 90-day period and if needed, an extension will be granted. If the petition is granted, the amount paid in advance that is in excess of the reduced HVT will be refunded to the taxpayer. If the petition is denied, the taxpayer may request a redetermination from the Revenue Division Director within 30 days of the denial. The decision of the Revenue Division Director is final and cannot be appealed to the Business License Appeal Board.
